DIGITAL
INNOVATION SUMMIT
BUCHAREST

From March 10 – 12, 2026, the National Institute for Research and Development in Informatics – ICI Bucharest will host the DIGITAL INNOVATION SUMMIT BUCHAREST (DISB) at the Palace of the Parliament, Bucharest, Romania.

This landmark event brings together our flagship conferences: the 9th Critical Infrastructure Protection Forum (CIP Forum) with this year's edition focusing on Dual-Use Technologies and Artificial Intelligence, the 5th International Conference on Cyber Diplomacy (ICCD), the 2nd Blockchain Intelligence Forum, the 21st International Conference on Virtual Learning (ICVL), and the 24th National Conference on Virtual Education (CNIV).

OUR FLAGSHIP CONFERENCES

The high-level international Critical Infrastructure Protection Forum – CIP Forum is one of Romania's most notable initiatives in this field. This forum is more than a conference; it is a nucleus that brings together leading industry speakers and professionals who can make a change within this essential sector. This year's edition (9th) focuses on Dual-Use Technologies and Artificial Intelligence.

A range of topics is proposed for the 5th edition of the International Conference on Cyber Diplomacy (ICCD), focusing on the geopolitical significance of cyberspace, gaps in global cyber governance, and key trends in global digitalization, with an emphasis on their impact on international relations, security, and policy-making.

The 2nd edition of the Blockchain Intelligence Forum will delve into blockchain's latest advancements, real-world applications, and potential while exploring the challenges and risks posed by this transformative technology, providing invaluable insight for businesses, investors, regulators, policymakers, financial institutions and law enforcement professionals.

OUR FLAGSHIP CONFERENCES

Together, these conferences form a comprehensive stage to address critical issues in infrastructure security, foster dialogue on cyber diplomacy, explore groundbreaking applications of blockchain, and shape the future of virtual learning.

The ICVL phenomenon brings into focus Romanian and international education projects and scientific research inspired by the educational trends in the field of eLearning. The Romanian academic event offers all actors involved in education the opportunity to exchange experience, and opportunities for future joint projects, being an authentic and inspiring community of virtual learning practice.

CNIV is a scientific event that promotes innovative technologies and methodologies in education, research, and lifelong professional development, both in the pre-university and university environments, as well as in the economic sector. This project promotes the implementation of modern ideas in education and training, encourages and supports teamwork and collaborative activities, scientific methods and experiments, creative thinking and intuition, argumentation and demonstration.

SEE YOU IN MARCH 2026

Beyond the formal sessions, the summit provides a dynamic platform to connect with international diplomats, visionary thinkers, and trailblazers.

It's a chance to exchange ideas, share your perspectives, and build impactful relationships that drive the future of digital innovation.
